LAMINEX® PARTITIONING SYSTEMS
BATHROOM PARTITIONS, SEATING AND LOCKERS
Discover Laminex® Partitioning Systems and learn how effortless toilet and shower partitioning can really be. Seven different systems cover all applications, from the office washrooms to the industrial shower, and everything in between. And with the addition of Seating and Locker Systems, Laminex has all the bases covered for a truly comprehensive and integrated solution.

Available in four different materials - Laminex Structural Grade, a durable laminated MR E0 MDF and two compact laminate varieties suitable for high abuse areas that are hosed clean - Laminex Multipurpose and the extra resilient Laminex XR Grade Compact Laminate.

Laminex Partitioning Systems is the ultimate combination of flexibility and style with an impressive range of colours and designs from the Laminex Colour Palette range as well as a range of exclusive decors to ensure every project looks its best. Laminex Partitioning Systems can also be disassembled and relocated to improve sustainability and cost efficiency.

Please note: to ensure authenticity of the Laminex Partitioning System, please look for our logo on the back of the door.
**PANEL SUBSTRATE**

- Laminex Multipurpose Compact Laminate 13mm
- Laminex XR Grade Compact Laminate 13mm

**FEATURES**

- Anodised aluminium headrail in a range of shapes
- Design registered 'Avanti' lock/indicator combined bumper
- Design registered 'Avanti' concealed hinges and coat hook

**HARDWARE**

- Stainless steel fixings
- U-shaped corner channels
- Snap door inserts

**DELIVERY AND INSTALLATION**

- Flat pack with instructions and tools for your own installation
- Installation can be organised by qualified installers

**WARRANTY**

- Laminex Compact Laminates - 10 years
- Hardware - 2 years

**HOW TO SPECIFY**

Materials shall be Laminex Partitioning Systems FMOB in substrate ................................ of nominal thickness .... mm, as supplied by The Laminex Group. Colour shall be ..........................................

Laminex Seating Systems are as tough as they are functional. Versatile enough to suit almost any floor plan, they can endure harsh treatment from athletes to school children. Aesthetically designed and constructed their inherent strength combined with a clever design makes them the perfect seating solution for a wide variety of locations. Whether it’s a change room, washroom, or simply a wet area, Laminex has the seating to suit and every seat comes with coat rails and hooks. There are three robust and versatile styles available: wall mounted (as shown), island seating, and integrated locker seating.

Laminex Locker Systems offer stylish, robust storage solutions. Available in three contemporary designs, they stand up to punishment from athletes and school children. Each locker can withstand tough treatment like harsh commercial cleaning, including hosing out. Outer panels and doors are made with Multipurpose, or XR Grade Compact Laminate while interior shelves and divisional elements are available in wet and dry area options. Dry area options use durable and economical Whiteboard MR shelves and divisional panels. Wet area options feature rigid plastic shelves and divisional panels with enhanced moisture resistance. Their construction and materials provide better security and aesthetics in locations like schools or public transport areas, thriving in damp and humid environments like gymnasiums or sports clubs. A wide range of colours complement the Laminex Partitioning Systems range, ensuring you’ll feel secure that you’ve made the right choice.

- Carbon Dust
- Cosmic Black
**MATERIAL DESCRIPTIONS**

Laminex Structural Grade MR E0 MDF 18 and 32mm moisture Resistant E0 MDF board, factory laminated on both sides. A modified substrate and laminating process with the decorative melamine surface provides superior impact resistance together with enhanced wear and abrasion properties. And being an economical solution, they’re recommended for low-abuse dry areas such as toilet blocks.

Laminex Compact Laminate 13mm self-supporting high pressure laminate based on thermosetting resins, homogeneously reinforced with cellulose fibres. Available in Multipurpose and XR Grade high wear finishes with excellent resistance to scratches, graffiti, vandalism, and water; for a premium level of hygiene protection in healthcare environments. They can also be conveniently hosed clean making them ideal for both high and low abuse areas like showers and toilet facilities. They are decorated on both sides with a distinctive black core that doesn’t require edging.

- **Laminex Multipurpose Compact Laminate** available in 30 decors from the Laminex Colour Palette specifically matched to the Laminex Structural Grade range, plus a further ten exclusive decors.

- **Laminex XR Grade Compact Laminate** ideal for the toughest conditions subject to scratches, graffiti, chemicals, water or general impact. XR Grade is available in six decors and able to withstand acids, alkalis, corrosive salts, and other staining substances, making it the perfect fit for hair salons, laboratories and other public amenities.

*### Notes:*

† AS/NZS 2924.1: compact general-purpose standard grade (CGS material type).

*Minimum of 1 N for dark colours.

The chemicals and reagents listed below were rated for Laminex XR Grade Compact Laminate in a covered method (watch glass cover) with exposure for a period of 16 hours. The reagents listed below do not damage Laminex XR Grade Compact Laminate.

Those reagents marked with an asterisk (*) may cause slight change in gloss or colour, depending upon the duration of exposure.

Those marked with two asterisks (**) will cause severe damage. Laminex recommends prompt cleanup of all spills using water, a cloth and mild detergent. In doubt about the suitability of a particular chemical not listed below, contact 132 136. Before committing to a particular product, we suggest you obtain samples and perform in-situ tests with chemicals most likely to be in contact with the product.

### Most Conventional Cleaning Agents
- Resistant to most common cleaning agents. Avoid the use of highly alkaline, highly acidic or abrasive cleaning agents.
PARTITIONING SYSTEM COMPONENTS

PANELS – Divisional, frontal and nib panels come finished to size, ready for assembly.

DOORS – Pre-drilled to suit concealed gravity hinges, indicator bolt, buffer and rubber tipped coat hook. Polished edge standard on Multipurpose Partitioning Systems, with privacy strip option available as an added feature.

FOOT ASSEMBLIES (STANDARD SYSTEM) – Durable anodised aluminium, conveniently height adjustable with concealed fixings.

SKIRT MOUNTED SYSTEM – Durable anodised aluminium with a contemporary, decorative skirting. Can be specified without a headrail for a clean freestanding aesthetic with an overall height of 1800mm. For heights over 1800mm, a headrail will be incorporated for extra rigidity.

HARDWARE – Avanti hardware, exclusive to Laminex. All fixing screws, hinges, bolts, locking mechanisms and indicators are provided and separately packaged.

INSTRUCTIONS – Every Partitioning System includes complete and detailed instructions and relevant limited warranty.

TOOL KIT – Allen key, screw driver bit, drill bits and silicone all included.
PRODUCT SPECIFICATIONS

Laminex Partitioning Systems can contribute towards maximising points for Green Star projects. Refer to the Green Building Council Australia Green Star rating tool within the Office Interiors Materials category for Walls and Partitions.

Laminex Partitioning Systems are marketed and distributed by Laminex Group Pty Limited ABN 98 004 093 092 trading as Laminex. The colours of the products featured within the imagery in this brochure are as close as photographic lighting and our printing processes allow. Different camera angles, although not designed to be misleading, can sometimes distort actual size and distances. Laminex Partitioning Systems range is no different than any other material in that darker colours will always show scratches and superficial wear and tear more readily than lighter colours. Laminex Partitioning Systems should be protected from strong, direct sunlight as continuous exposure may cause discolouration or fading to the surface. Please obtain a copy of the terms and conditions of the applicable warranties from laminex.com.au. This warranty is in addition to any rights that may exist under the Australian Consumer Law. Laminex®
